The mountain parliament & the sustainable housing plan

Simon.moulines@laregion.fr

Why a mountain parliament ?

The mountains in Occitania:

- 1 in 5 inhabitants of Occitania (or 1.1 million people)
- 2 mountain ranges: the Massif Central and the Pyrenees
- 12 departments involved in the mountain zone
- 41,000 km², or 55% of the regional territory
- 2,055 municipalities (or 45% of the municipalities in Occitania)

Goals of the mountain parliament

The Parliament is a unique citizen consultation body in France dedicated to the mountains, bringing together all the stakeholders and inhabitants of the mountain ranges in Occitania.

Being a driving force for proposals

A place for debate and forward-thinking reflection, to identify needs and propose solutions for the mountains of tomorrow.

Acting as a project catalyst

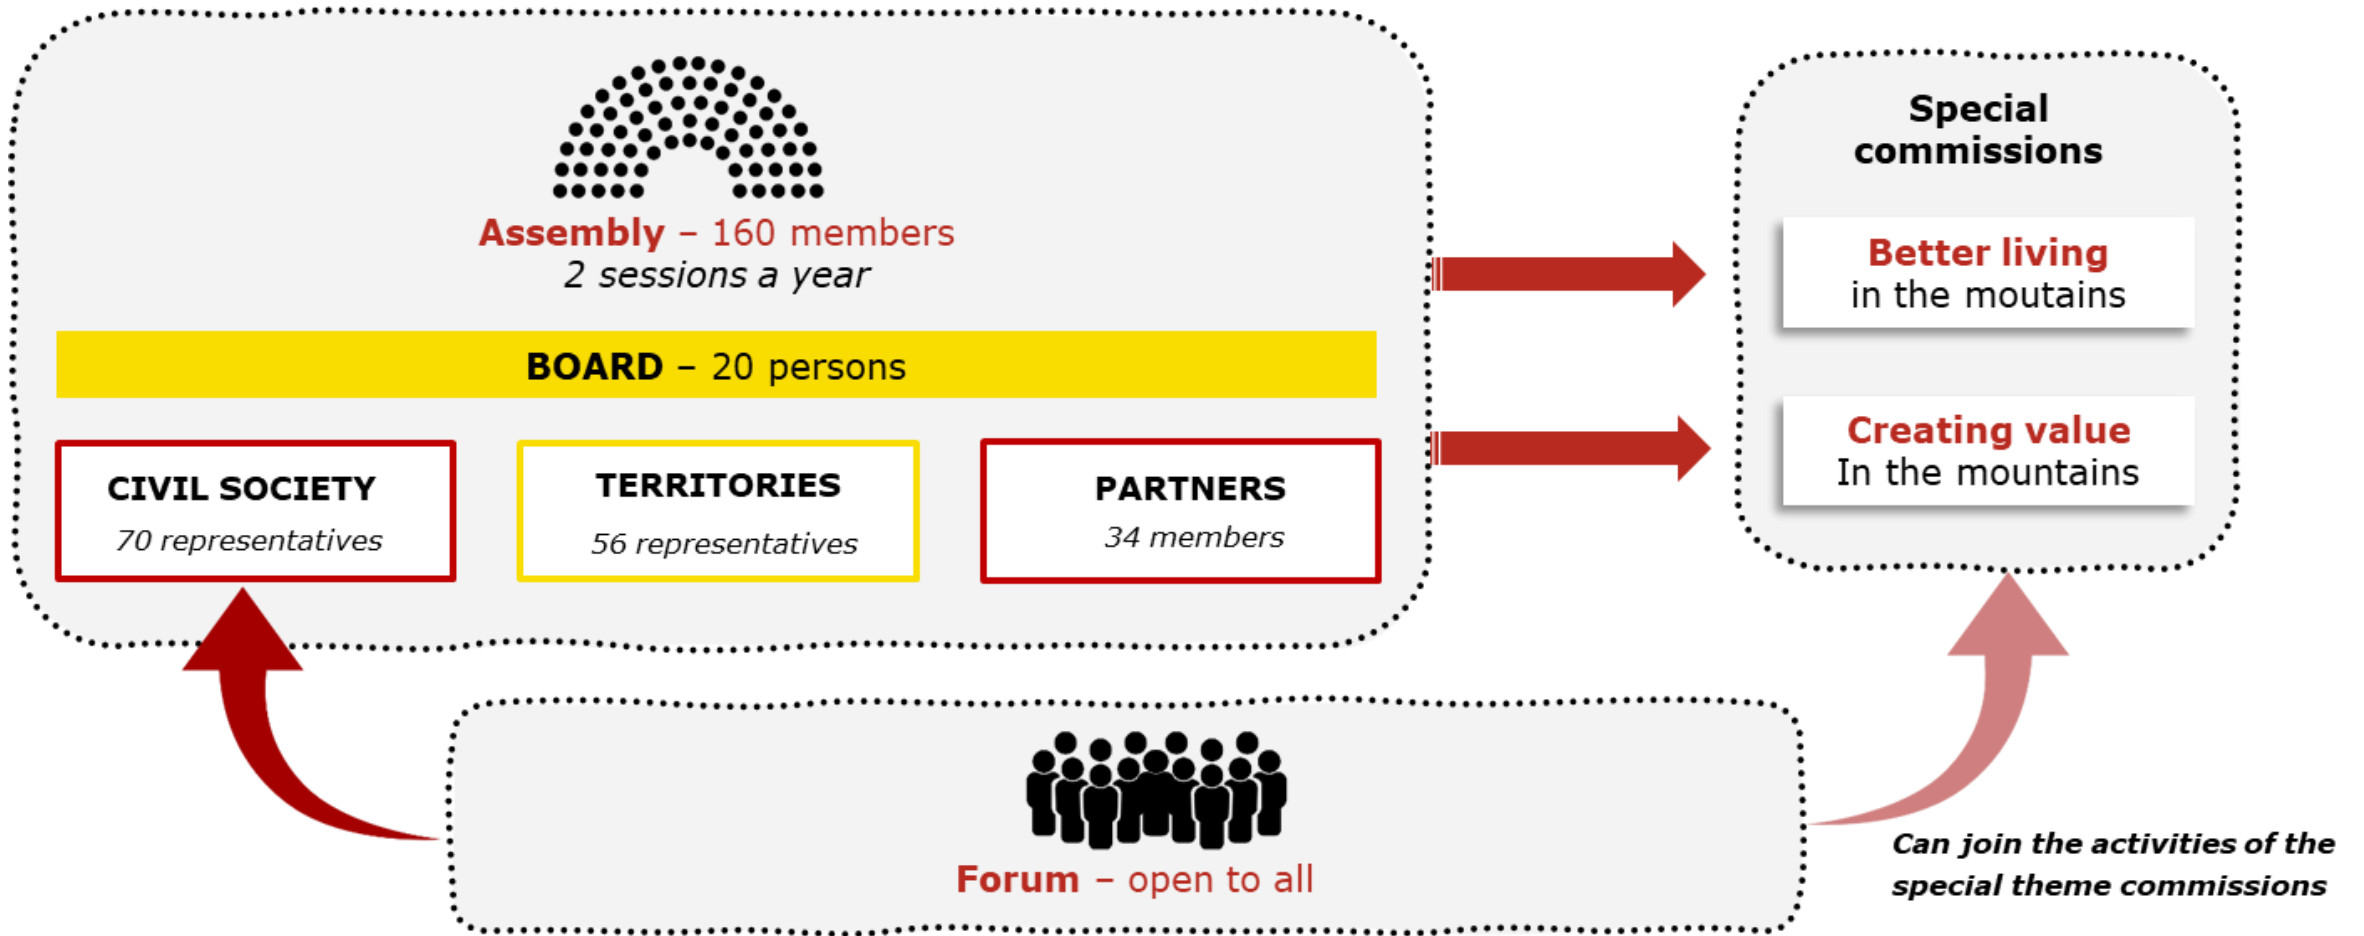

Proposing innovative approaches and experiments, working closely with local stakeholders, in coordination with partner bodies – promoting and sharing experiences.

Uniting mountain stakeholders

Promoting a mountain culture that brings people together, addressing common issues, creating synergies, and sharing experiences.
